

HOOD TYPE DISHWASHER, INSULATED

Model: EHT8IUSPH6

Article no: 504265

Power supply: 440V 3Ph ~60Hz

This hood type dishwasher is a compact, double skin tank machine with a large capacity of up to 80 baskets per hour. The machine requires only 2 litres of water per washing cycle thus ensuring low energy, water, detergent and rinse aid consumption. Main inside components, as well as the outside panels, are made in AISI 304 stainless steel with smooth surfaces for easy cleaning.

Built-in atmospheric boiler sized to raise incoming water to a minimum of 84 °C for sanitizing rinse.

Built-in drain pump and built-in rinse aid dispenser with automatic initial and continuous cycle loading for a perfect result while minimizing service and maintenance needs.

State-of-the-art electronic controls with built-in programming, self-diagnostics for serviceability and automatic interior self-cleaning cycle.

CLEAR BLUE advanced filtering system provides cleaner wash water and higher active detergent thus ensuring better washing performances and lower running costs. Automatic self-cleaning cycle and self-draining vertical wash pump and boiler to avoid bacteria proliferation. The model is provided with sound and heat insulation and intended for connection to hot water.
