

WASHER-EXTRACTOR 8 KG, MANUAL & AUTOMATIC DOSING

Model: WH6-8

Article no: 9867630202

Power supply: 400V 3Ph ~50Hz

The WH6-8 washer-extractor has a certified ergonomic design with a human-centered approach for outstanding user experience. The Compass Pro® microprocessor offers a large display, one control knob for easy program and language selection, and quick choice and option buttons for the most frequently used wash programs. Four-compartment detergent box for flexible manual dosing of powder or liquid detergent. Professional door with gasket and sturdy hinges built for heavy-duty operation, hygiene, and long-term savings.

The washer has programs optimized for the lowest consumption of water, energy, and detergent. Automatic Savings weighs the linen and adjusts the water level to the amount of linen, saving water and energy at less than full load.

Monitoring the equipment's status and performance from anywhere allows us to take action to improve the business. Connectable to OnE Laundry, the personal assistant for hygiene validation, process management, and revenue management.

Install the machine close to a floor drain or open drain. The machine should be positioned so that there is plenty of room for working, both for the user and service personnel. The figure shows minimum distance to a wall and/or other machines. Failure to respect the prescribed distances will prevent easy access for maintenance and service operations.

MARINE INSTALLATION

To ensure steadiness of the machine; the machine must be fastened to the floor. Place the machine over the two drilled holes. The holes are at the front of the machine. Level the machine with the feet of the machine. Screw in the feet as much as possible before starting to level the machine. This will make the machine stand steadier. The maximum height adjustment of the feet is 30 mm. Insert the expansion bolts (1) into the holes drilled in the floor. Fit the washers and nuts and tighten with tightening torque 5 Nm.

POSITION ON VESSEL

The unit shall be placed as in the figure.
